Employment

- 2019 - 21 **Software Engineer**, *Facebook*, Menlo Park, CA.
- Build ranking models and deep funnel products in the app ads space.
- 2018 - 19 **Senior Data Scientist**, *Lending Club*, San Francisco, CA.
- Built ensemble models to identify potential repeat borrowers representing over \$1.5 billion in personal loans per year.
 - Collaborated with the data engineering team to create data sources in Hive that are robust to data leakage and used for production model development.
 - Worked with credit bureau and financial behavioral features on topics such as NLP in marketing and LTV modeling.
- 2017 - 18 **Senior Data Scientist**, *Sentient Technologies*, San Francisco, CA.
- Built and trained a reinforcement learning model for long/short trading.
 - Trained and tuned visual similarity models for apparel recommendations. Used a deep Siamese network with apparel images as input and output.
 - Created a basic framework for plugging in different optimization engines to search the space of audience targeting, bidding, and ad creative for digital marketing advertisement.
 - Led development of MVP for full funnel optimization. Productionized feature modeling research code. Helped develop the backend- serving using Flask, the UI with Bootstrap, and productionization with CI/CD leveraging Travis and AWS.
- 2016 - 17 **Data Science Fellow**, *Fellowship.AI*, Oakland, CA.
- Developed a long/short trading model for a hedge fund client. Used reinforcement learning with a DQN network with experience replay and epsilon-decay in TensorFlow.
 - Led biweekly status update meetings with the project manager and scientist at the hedge fund.
- 2013 - 16 **Developer, Manager of Education Software Technology**, *Wolfram Research*, San Francisco, CA.
- Hired, trained, and managed a remote group of developers working on education-focused technologies such as Wolfram|Alpha.
 - Led development and content meetings with CEO, Stephen Wolfram.
 - Developed continuously deployed revenue generating math content for wolframalpha.com.

Skills

Languages	Mathematica, Python, SQL, Korean
Frameworks	NumPy, pandas, scikit-learn, Keras, TensorFlow, Presto, XGBoost
Learning	Machine Learning, Deep learning, Reinforcement learning, Deep Q-learning
Miscellaneous	Git, AWS, Travis, Docker, HTML, L ^A T _E X, Camtasia
Interests	Powerlifting, scuba diving, snowboarding

Education

- 2013 **MS in Mathematics**, *Purdue University*.
- 2011 **BA in Mathematics with Honors**, *Northwestern University*.
- 2009-2010 **Budapest Semesters in Mathematics**, Budapest, Hungary.
- 2007 **High School Diploma**, *The Hill School*, Pottstown, PA.
